

TECHNICAL SPECIFICATION :

DESCRIPTION	DATA
Maximum working pressure	8.5 kg/cm ²
Normal working pressure	6.5 kg/cm ²
Intercooler pressure at normal working pressure	2.0 kg/cm ²
Normal and maximum operation speed on load	1400 rpm
Speed of tractor power take-off	1400 rpm
Free air delivery at 6.5 kg/cm ² and working pressure of 1400 rpm	134 cfm
f.a.d (free air delivery)	63.4 l/s
Power required for a compressor shaft at full load	42 HP
Air receiver capacity	80 litres
Lubricating oil pump capacity	4.5 litres
Net weight(with mounting)	650 kg
